- ➤ **Graduation** : Deen Dayal Upadhyaya Gorakhpur University

  - **Degree:** Bachelor of Technology in INFORMTION TECHNOLOGY.
  - **Duration:** Sep 2021-July 2025.
  - **Cgpa:** So far is **8.11**.
  - **Relevant Courses:**Data Structures, Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Machine Learning.

- ➤ **Intermediate:** Oasis Public School ,Varanasi,Uttar Pradesh.

  - **Stream:**PCM.
  - **Pass-out:**2020.
  - **Percentage:**83%

SKILLS

- **Programming Language:** Java,Python,JavaScript.
- **Web Technologies:**HTML5,CSS,React.js,Node.js.
- **Database Systems:**MySQL,MongoDB.
- **Tools &Technologies:** Git,GitHub,VS Code.
- **Operating System:** Linux,Windows.

PROJECTS

1) JOB PORTAL

Role:Frontend Developer.

Tools=Mern Stack,JavaScript.

- Developed an integrated job search and filtering system for users to easily find jobs based on

  location, job type, and industry.

- Created a resume builder component allowing users to easily create and download resumes,

  ensuring an intuitive user experience.

2) Controlling PC Using Hand Movement

Tools: Python,OpenCV and GUI.

- Developed a hand gesture recognition system.
- Implemented gesture-based control features, processing real-time video feed at 30 FPS using OpenCV and Python.

- Created a visual feedback system for users to see real-time gesture detection, improving user interaction and ease of use.

INTERNSHIP/EXPERIENCE

➢ **Salesqueen Software Solution**

- Frontend Developer Intern
- Duration:Three month.
- "Develop and maintain HTML, CSS, and JavaScript components for radiology billing and location management systems. Solve real-world bugs and issues to ensure smooth functionality, enhance user experience, and optimize system performance. Collaborate with cross-functional teams to implement responsive, efficient, and scalable solutions for improved system efficiency."

CERTIFICATIONS

➢ **Artificial Intelligence**

- Completed an AI course under the Samsung Innovation Program as part of the Industrial Training Program. Gained hands-on experience in machine learning, data analysis, and AI technologies, focusing on real-world applications.

➢ **Signal & Telecom Training Center**

- Completed training at the Signal & Telecom Training Center under N.E. Railway, gaining practical knowledge in railway signaling, telecommunications systems, and network management. Acquired skills in troubleshooting, system maintenance, and ensuring efficient communication systems.

ACHIEVEMENTS/EXTRACURRICULAR ACTIVITIES

➢ **Juspay Hiring Challenge**

- Scored 29 out of 30 in Round 1.1 of the Juspay Hiring Challenge 2024. Demonstrated strong problem-solving skills, technical expertise, and quick adaptability in a competitive environment. Excited to leverage this achievement and apply my knowledge to contribute to innovative projects and solutions in the tech industry.

➢ **Deveskillhub**

- Received an offer letter for Web Development Internship from DevSkillHub**,** recognizing strong skills in HTML, CSS, JavaScript, and modern web technologies. Demonstrated technical expertise and problem-solving abilities through the selection process.
